

It would be a very sad day if Low Power FM was given priority over FM translator service. K-LOVE heard on 103.7 and 95.5 in the Eureka, CA area is one of only two stations we listen to. I'm concerned that we would not be able to receive the K-LOVE signal if FCC proposed rule changes are enacted. If K-LOVE were to be displaced by an LPFM broadcaster providing other programming, we would lose the family-friendly programming we have loved and supported ever since we moved to the area a little over a year ago. K-LOVE supports wholesome values and has a positive and encouraging impact on communities all across the United States of America. Please allow FM translators to continue serving our community.
